National Training Institute for School-Based Mentoring

February 26-28, 2008

Ewing Marion Kauffman Foundation, Kansas City, Missouri

**Educators. Mentoring Professionals.
Community Leaders. Mentoring Grant Recipients.**

Whether you're managing a mentoring program in your school district, thinking about it or just getting started, the February Training Institute in Kansas City is the place for you.

Learn. Experience. Share. Join colleagues from across the country for in-depth sessions on the key components of a successful school-based mentoring effort.

Participants in the November 2007 Training Institute offer the following encouragement:

"The Training Institute offered more than just help with a mentoring program. It gave me insight and hands-on activities that enable me to serve as a teacher/mentor and share with the volunteers who express interest in our future program." Cathy Scott, Airline High School, Bossier City, LA

"Extremely helpful. Great opportunity to network and share ideas. The resources you are provided are wonderful! You don't have to reinvent the wheel!" Linda Lowe, Project Leadership, Marion, IN

"I would have to say that this has been one of the best engaging trainings I've been to. The presenters, the materials and the overall environment have supported me enough to be able to walk away and begin a strong mentoring program. Thank you!" Ah Van-Lo, IR CO Immigrant & Refugee Comm, OR
